Inventory Control Analyst

Konga Group

May 2021 - Present (1 year 4 months +)

Had handled items for the returned unit in which I solve problems of Mismatched waybill and dent carton items returned from the customer or the Merchant

Had diverse knowledge in the use of Power BI for exporting Work data control

Managed Inventory control for the warehouse in which I was able to accentuate variance in stock and provide a solution to an existing problem

Diverse Knowledge in the use of Inventory Software (Such as SAP, Atom, Mercury, and Magento) for Quality assurance of items and creating of waybills in inventory control management

I had Knowledge in Procurement and stock calculation

Intensive training of every warehouse worker, regardless of the level of activity on the floor, helps ensure the accuracy of the system.

Audit Officer

Konga Group

Sep 2020 - Present (2 years +)

Count inventory and create inventory reports

Traveling frequently to different stores to record accurate counts of various products and materials. Ensuring optimal conditions to maintain goods fresh and clean

Identifying products damaged during transportation and Confirming the quality of goods.

Warehouse Officer/Supply chain Management

Zinox Technologies Ltd.

Sep 2016 - Feb 2020 (3 years 6 months) Achievements as a Warehouse Officer

- ✓ Assist in resolving variance of stock
- ✓ Knowledge of the use of Microsoft dynamics 365 for processing items to enable workflow and customer satisfaction
- ✓ Track down inventory discrepancies during a count, if there is time to do so. In many cases, discounts are only misplaced items.

- ✓ Shorten the time between counts to increase accuracy.
- ✓ Encourage a strong working knowledge of how the system operates, so workers can assist each other with information, as needed when problems develop throughout the day
- ✓ Ensuring Newly items received are properly arranged in the right location so as to offset a fraction of the existing items
